Twitter description: Well Being Trust is a national foundation with a mission to advance the mental, social and spiritual health of the nation. Follow website link to learn more.

Description of the organization from a third party source: "Well Being Trust is a national foundation dedicated to advancing a vision of a nation where everyone is well in mental, social and spiritual health. Launched by Providence St. Joseph Health in 2016 as an independent 501(c)(3) public charity with an initial seed endowment of \$100 million plus an additional \$30 million to be invested in California from 2017 to 2019, Well Being Trust is now investing in approaches that have the potential to model the way forward. Well Being Trust was created to advance clinical, community and cultural change to transform the health of the nation and improve well-being for everyone. We recognize that this work cannot have the needed impact if it is driven by any one organization. It needs to be co-owned by all of us and informed by the wisdom of people, organizations, and communities. With partners and grantees, we are supporting and encouraging a powerful movement that benefits everyone."
