**Description of the organization from a third party source:** "Communities thrive when members engage and feel connected and respected. Compassion 2020 is a values-driven campaign designed to spread a more positive vision for society and to create actionable opportunities for members of companies, congregations and classrooms to create more connected and compassionate communities. As we enter a contentious election season, Compassion 2020 serves as a reminder of our shared humanity and encourages a more compassionate engagement (empathy + action) with people and our planet. Compassion 2020 is a Citizen Discourse campaign collaboratively produced by a growing coalition of organizations committed in mission to a kinder more informed and engaged society."
