**Twitter description:** United For Peace and Justice is a network of more than 1,000 groups nationwide who have joined together to protest militarism and organize for peace!

**Description of the organization from a third party source:** "UFPJ was founded, in 2003, to build a coalition of local and national peace and justice organizations to prevent the War on Iraq. The conflicts raging around the world today make it clear that the need to work for peace remains more important than ever. That is why UFPJ reorganized, in 2008, as a network and now operates with an all-volunteer Coordinating Committee, supported by one part-time staff member who assists with UFPJ action alerts, campaigns, and organizing. They meet weekly to manage the ongoing communication and administrative requirements of the network. [Note from BDI: The organization is also an affiliate of World BEYOND War.]"
