Description of the organization from a third party source: "Karuna Center has worked in more than 30 conflict-affected countries since 1994, including the United States. We facilitate in-depth dialogue with deeply polarized groups, lead peacebuilding trainings, design and implement multi-year programs, and consult on conflict analysis. We work closely with local partner organizations and focus on building local capacity and peace leadership. Bridging diverse sectors of society, our programs foster successful collaborations among government, civil society, religious constituencies, and conflict-affected communities. Through these collaborations, our purpose is to reduce violent conflict, strengthen community resilience, and allow people to uncover their shared needs across deep divides. In some cases, Karuna Center program participants have founded new community-based peacebuilding NGOs and networks that remain strong forces for peace work today."
