Twitter description: Peace News Network brings you the other side of the story from conflict zones: Stories about peacebuilders. Follow us for your fix. RTs = desire to discuss.

Description of the organization from a third party source: "Peace News Network aims to present the other side â€œ stories from conflict zones we often don't hear. Our stories are about people taking risks for peace. We highlight the opinions of ordinary people who want non-violent solutions to their political differences. Our stories aren't always about shootings and explosions, but they do tell you stories from war zones that hopefully go some way towards building trust and reconciliation. Founded by Dr Babak Bahador, and launched in 2015, Peace News Network is a non-partisan, independent, news agency. We are based in Christchurch, New Zealand, and Washington D.C., USA, and Kate Roff is the founding, and current, editor."
