Sustainability requires the participation of all people and all parts of society, working with each other and with nature. The book provides dozens of approaches for doing this, including guidance for generating collective wisdom, participatory leadership, inclusive participatory forms of power, and six expanded dimensions of intelligence we can use together to address the depth and complexity of the challenges we face. Recognition of the intrinsic participatory nature of both sustainability (co-creating a good life for

our grandchildren) and non-sustainability (co-creating disaster) provides both motivation and direction for making a better world, starting immediately.; Feb 2017 € 92 pages € \$8.50 paperback € \$3.50 Kindle; To order it now, click here.; ; Read; Reflections on Evolutionary Activism; Essays, Poems and Prayers from an Emerging Field of Sacred Social Change; Tom Atlee offers a fresh, and penetrating perspective - connecting our understanding of evolution, consciousness, and activism into a new and compelling synthesis for making a difference in today's challenged world. -Juanita Brown and David Isaacs, The World Cafe; An inspiring manifesto, a handbook, a gift of love and truth like no other. -Robert Steele, #1 Amazon non-fiction reviewer; Evolution, the most ancient, complex and self-organized of all change processes, has been going on for 13.7 billion years. We are now part of that process becoming conscious. Inspired by the Great Story of evolution and our role in it, and guided by our increasing understanding of evolutionary dynamics, we can co-create wiser social systems, cultures, consciousness, and technologies.
