Twitter description: Helping You Build Peace ... in yourself, family, church, community, nation & world

Description of the organization from a third party source: "On Earth Peace members work together to help build a world of "Beloved Community" where violence, oppression, and war are overcome through the liberating power of radical love. We work through mutual training and accompaniment in the spiritual and practical disciplines of active nonviolence, community building, and conflict transformation. On Earth Peace is an agency of the Church of the Brethren, a "Historic Peace Church." While our inspiration is rooted in our faith, our programs can help any church, school, community, or other group grow in this work without regard to any or no religious affiliation. The OEP community is committed to full inclusion of people of all identities, and to the work of racial justice and anti-racism transformation."
